A Simple Guide to the Computer World

1. What is a Computer?

A **computer** is an electronic device that helps us to do many things like learning, playing, drawing, writing and much more.

A computer works with electricity and simple instructions.

2. Parts of a Computer

A computer has different parts.
The main parts are:

2. The Monitor

The computer is like a TV screen.
It shows pictures, words and videos from the computer.

We see the output on the monitor.

4. The Keyboard

The **keyboard** helps us to type letters, numbers and words.

Each key has a special job.

A B C 1 2 3

5. The Mouse

The **mouse** helps us to point, click and select things on the screen.

Move the mouse and click to do actions.

6. The CPU

The **CPU** (Central Processing Unit) is the brain of the computer.
It processes the data and gives instructions to other parts.

It works like a brain inside the computer.

7. Input and Output

We give information to the computer through input devices.
The computer shows the result through output devices.

Input Devices	Output Devices
Keyboard	Monitor
Mouse	Printer

8. Software

Software tells the computer what to do. It is a set of instructions.

Windows · Word · Paint · Games · Chrome · VLC

Software helps us to work, play and learn.

9. Operating System

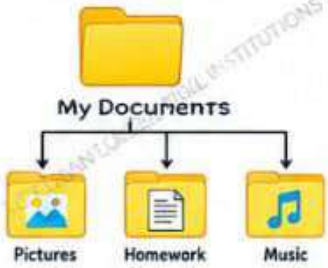

The operating system (OS) manages the computer. It helps us to run other software.

Windows

Windows is a popular operating system.

10. Files and Folders

We store our work in **files**.
Files are kept in **folders**.

Folders help us to keep our files organized.

11. Let's Practice

Tick (✓) the correct answer.

1. Which part shows the pictures on the screen?
   a) Keyboard b) Monitor c) Mouse
2. Which device helps us to type?
   a) Mouse b) Keyboard c) Printer
3. The brain of the computer is called:
   a) Monitor b) CPU c) Speaker
4. Which is an input device?
   a) Monitor b) Keyboard c) Printer

Great Job!

12. Fun Computer Facts

- The first computer was very big!
- Today, computers are small and powerful.
- Computers can help us learn from anywhere.
- They are used in schools, hospitals, shops and even at home.

13. Be a Safe Computer User

We should always be safe when using a computer.

- Do not share your personal information.
- Do not click on unknown links.
- Use strong passwords.
- Be kind and respectful online.

Stay Safe • Stay Smart

14. Computer in Our Daily Life

We use computers in many ways.

Computers help everyone!

Keep Learning Keep Exploring

A brighter future with computers!
